## Celebrating Success: Our Flooring Division Wins Prestigious NTMA International Honor Award

We are thrilled to share the exciting news that our Flooring Division has been honored with the NTMA International Honor Award, a recognition bestowed upon the judges' choice for the international project of the year.

The award-winning project showcases our expertise in terrazzo craftsmanship at the FAIRMONT Hotel in Doha. This exceptional project stands out for its meticulous technique, featuring a seamless, complex geometrical pattern composed of interconnecting semi-circles, all impeccably shaped in terrazzo without the use of trims or inserts.

It fills us with immense pride to note that we are the sole recipient of this esteemed honor outside the United States of America for the year 2024. The prestigious ceremony took place in Tucson, Arizona, from April 14th to April 18th, 2024.

We extend our heartfelt gratitude to everyone whose dedication and hard work contributed to this remarkable achievement. Together, we continue to set new standards of excellence in the flooring industry. Congratulations to our entire team on this well-deserved recognition of our commitment to innovation and quality craftsmanship.
